TROPICAL CYCLONE BULLETIN NR. 27
Tropical Depression ADA (NOKAEN)

Issued at 11:00 AM, 20 January 2026
Valid for broadcast until the next bulletin at 5:00 PM today.

"ADA" MAINTAINS ITS STRENGTH WHILE MOVING NORTHEASTWARD OVER THE PHILIPPINE SEA.

Location of Center (10:00 AM)

The center of Tropical Depression ADA was estimated based on all available data at **820 km East of Northern Luzon (18.0°N, 129.5°E).**

Intensity

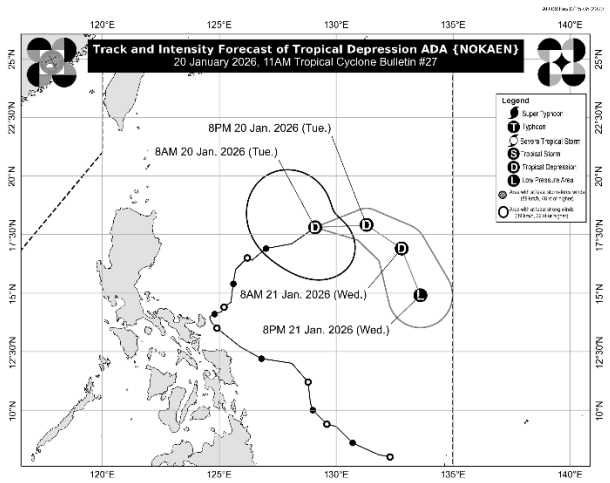
Maximum sustained winds of **55 km/h** near the center, gustiness of up to **70 km/h**, and central pressure of **1000 hPa**

Present Movement

Northeastward at 20 km/h

Extent of Tropical Cyclone Winds

Strong winds extend outwards up to **340 km** from the center



TRACK AND INTENSITY FORECAST

Date and Time	Center Position			Intensity		Movement dir. and speed (km/h)

OTHER HAZARDS AFFECTING LAND AREAS

Severe Winds

The surge of the Northeast Monsoon will also bring strong to gale-force gusts over the following areas (especially in coastal and upland areas exposed to winds):

- **Today:** Batanes, Babuyan Islands, Ilocos Norte, Abra, northern and eastern mainland Cagayan, eastern Isabela, Aurora, Rizal, Quezon, Lubang Islands, Romblon, Marinduque, Bicol Region, Northern Samar, Caluya Islands, Dinagat Islands, and Siargao-Bucas Grande Islands.
- **Tomorrow (21 January):** Most of Luzon, Visayas, Caraga, Davao Region, and Zamboanga Peninsula; Camiguin, Misamis Oriental, Lanao del Norte, Basilan, Sulu, and Tawi-Tawi.
- **Thursday (22 January):** Most of Luzon, Visayas, Caraga, Davao Region, and Zamboanga Peninsula; Camiguin, Misamis Oriental, Lanao del Norte, Basilan, Sulu, and Tawi-Tawi.

HAZARDS AFFECTING COASTAL WATERS

A Gale Warning is in effect over the northern seaboard of Northern Luzon. For more details, refer to Gale Warning No. 1 issued at 5:00 AM today.

24-Hour Sea Condition Outlook

Up to very rough seas over the following coastal waters:
- **Up to 5.5 m:** The seaboards of Batanes and Babuyan Islands.
- **Up to 5.0 m:** The seaboard of Ilocos Norte; the eastern seaboard of mainland Cagayan.
- **Up to 4.5 m:** The seaboards of Ilocos Sur and Isabela; the remaining seaboard of mainland Cagayan
- **Sea travel is risky for all types or tonnage of vessels. All mariners must remain in port or, if underway, seek shelter or safe harbor as soon as possible until winds and waves subside.**

Up to rough seas over the following coastal waters:
- **Up to 3.0 m:** The seaboard of Aurora and Camarines Norte; the northern and eastern seaboards of Polillo Islands, Catanduanes, and Northern Samar; the northern seaboard of Camarines Sur; the eastern seaboards of Albay, Sorsogon, and Eastern Samar; the remaining seaboard of Ilocos Region
- **Mariners of small seacrafts, including all types of motorbancas, are advised not to venture out to sea under these conditions, especially if inexperienced or operating ill-equipped vessels.**

Up to moderate seas over the following coastal waters:
- **Up to 2.5 m:** The seaboard of Zambales, northern mainland Quezon, Kalayaan Islands, and Surigao del Sur; the eastern seaboard of Dinagat Islands; the northern and eastern seaboards of Siargao-Bucas Grande Islands; the western seaboards of Polillo Islands
- **Up to 2.0 m:** The eastern seaboard of Davao Oriental
- **Mariners of motorbancas and similarly sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.**

Other coastal waters have forecast wave heights of less than 2.0 m.

TROPICAL CYCLONE BULLETIN NR. 27
Tropical Depression ADA (NOKAEN)
Issued at 11:00 AM, 20 January 2026
Valid for broadcast until the next bulletin at 5:00 PM today.

TRACK AND INTENSITY OUTLOOK
ADA is forecast to move generally eastward before turning south southeastward tomorrow (21 January). Continuous dry air entrainment from the northeast monsoon is expected to result in gradual weakening of ADA. It may be downgraded into a low pressure area by tomorrow, although earlier weakening remains possible.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 5:00 PM today.
